Check-In

Provided that we didn't have guests that departed on the same day as your arrival, we are not too rigid on check-in times, but you need to confirm your estimated arrival time with us a day prior to your arrival. If we can accommodate your arrival time we will most certainly do so, if not, check-in time will be 2pm. Depending on your estimated time of arrival, I will finalise key collection procedures with you closer to the time.

Check-Out

Similarly, provided that we don't have guests arriving on the same day as your departure, you are welcome to check out as late as 2pm. We will inform you if this won't be possible in which case you unfortunately have to check-out by the latest 10am. Again, depending on your time of departure, we will make arrangements for the keys a day before your departure.
